Our 8a STARS II contract

The STARS II Government-wide Acquisition Contract (GWAC) is the GSA's newest contract vehicle. It's a competitive multiple award, indefinite-delivery, indefinite-quantity set-aside small business contract. It is designed specifically to provide all federal defense and civilian agencies with an efficient, flexible way to order the full range of worldwide information technology services and solutions. These services and solutions include support for specific systems and applications, infrastructure, systems integration, information assurance, and related training and program management. Eyak Services, LLC was awarded all functional areas:

Functional Area 1 – NAICS 541511 – Custom Computer Programming Services

This U.S. industry comprises establishments primarily engaged in writing, modifying, testing, and supporting software to meet the needs of a particular customer.

- Custom computer applications software programming services;
- Custom computer program or software development;
- Custom computer programming services;
- Custom computer software analysis and design services;
- Custom computer software programming services;
- Custom computer software support services; and
- Web (i.e. Internet) page design services, custom.

Functional Area 2 – NAICS 541512 – Computer Systems Design Services

This U.S. industry comprises establishments primarily engaged in planning and designing computer systems that integrate computer hardware, software, and communication technologies. The hardware and software components of the system may be provided by this establishment or company as part of integrated services, or may be provided by third parties or vendors. These establishments often install the system and train and support users of the system.

- CAD (computer-aided design) systems integration design services;
- CAE (computer-aided engineering) systems integration design;
- CAM (computer-aided manufacturing) systems integration design;
- Computer hardware consulting services or consultants;
- Computer software consulting services or consultants;
- Computer systems integration analysis and design services;
- Computer systems integration design consulting services;
- Computer integrator services;
- Information management computer systems integration design services;
- Local Area Network (LAN) computer systems integration design services;
- Computer network systems design services; and
- Office automation computer systems integration design services.

Functional Area 3 – NAICS 541513 – Computer Facilities Management Services

This U.S. industry comprises establishments primarily engaged in providing on-site management, and operation of client's computer systems and/or data processing facilities. Establishments providing computer systems or data processing facilities support services are included in this industry.

- Computer systems facilities management and operation services;
- Data processing facilities management and operation services;

- Computer systems or data processing facilities management and operation services; and
- Computer systems or data process facilities support services.

Functional Area 4 – NAICS 541519 – Other Computer Related Services

This U.S. industry comprises establishments primarily engaged in providing computer-related services (except custom programming, systems integration design, and facilities management services). Establishments providing computer disaster recovery services or software installation services are included in this industry.

- Computer disaster recovery services; and
- Computer software installation services.

About STARS II

Streamlined and Flexible. That is why GSA created this third generation Government-wide Acquisition Contract (GWAC) and why hundreds of federal defense and civilian organizations over the past dozen years made the two predecessors 8(a) GWACs their vehicles of choice. The STARS II GWAC is set aside for small businesses that participate in the Small Business Administration 8(a) program. It provides all federal defense and civilian agencies with an efficient, flexible way to order information technology services and solutions worldwide while accruing 8(a) socio-economic credit.

STARS II key features and benefits include:

Features

- Pre-competed, multiple award contracts
- Aligned with Federal Enterprise Architecture
- Five-year base with one, five-year option
- Contract types: fixed price, labor hour, and time and material terms
- Ordering procedures based on Fair Opportunity (FAR 16.505)
- Directed task orders up to \$4 million
- Program ceiling – \$10 billion

Benefits

- Enables federal clients to earn 8(a) and Small Business credit
- Pre-competed, easy-to-use contracts
- Short procurement lead time
- Free Training and support from STARS II GWAC acquisition team
- Avoids bundling concerns
- Limited ability to protest in accordance with NDAA 2008
- Low user fee (0.0075) capped for large orders
- Sole source awards up to \$4 million ceiling

STARS II Services

The STARS II contract provides support for all current IT and any new technologies which may emerge during the lifecycle of the contract. These IT services and solutions include support for specific systems and applications, infrastructure, systems integration, information assurance, and related training and program management. Please review <http://gsa.gov/8astars2> for more details.
